

# AN INTRODUCTION TO ADVANCE DRIVER ASSISTANT SYSTEMS (ADAS)

Limited Seats!

Course Fee  
**RM1300**  
per pax

Almost of vehicles on the road today are fitted with Advanced Driver Assistance Systems (ADAS) such as Autonomous Emergency Braking (AEB).

Despite the ever-increasing introduction of ADAS, which is now a common feature on all new cars, there has been a lack of clear information on how to approach the repair of these safety-critical systems.

The need to understand the calibration before, during and after repair is sometimes overlooked or misunderstood.

MRC Malaysia has specially designed a half day introduction program "An Introduction to Advanced Driver Assistance" on:

## Training Programme :

0830	Arrival of Participants
0900	Safety Briefing, Self & Participants' Introduction
0915	Introduction to ADAS
1030	Tea Break
1045	ADAS sensors and function
1230	Lunch break
1400	Explanation on ADAS Calibration
1430	ADAS Calibration Demonstration
1530	Tea Break
1545	ADAS Calibration Demonstration Con't
